

September 15, 1992

To the Conservation Chairmen of the member clubs
From Hazel Wolf, Chairman of the FWOC Convention
Resolutions Committee.

Dear Friends:

Enclosed are the resolutions adopted at the
61st annual convention of the Federation. As you
may know, they are not binding on any of the
clubs, but only available for use if desired.

It adds considerable clout if presented at
agency hearings or in writing to our
representatives, since the total membership of
the Federation's clubs is over 250,000. Brock
Evans, our Washington, D.C. representative, uses
them many times in lobbying for environmental
legislation. He has said that "Federation
resolutions add a strong arrow to my quiver."

These resolutions originated from those sent in by
the clubs for the convention's consideration. On behalf
of the Resolutions Committee, please accept our
appreciation for your cooperation.

Sincerely

Hazel Wolf
Chairman
